B.S. Construction Management

The BSCM program is designed for students interested in the technical aspects of managing a construction project for planning phase through to completion.

Students gain knowledge of the construction industry and construction operations, as well as extensive training in construction related business and management applications.

The program requires students to complete a 400-hour internship that allows them to gain actual hands-on, project-based industry work experience before graduation.

Another unique characteristic of the BSCM program is that all students earn a minor in Business Administration. This allows them to gain an understanding of the business side of the construction industry, and how to grow and operate a successful business enterprise.

B.S. CONSTRUCTION MANAGEMENT

8-SEMESTER PLAN - FALL 2025

First Year

FALL		
Course #	Course Name	Hours
C1 ENGL 101	Writing and Rhetoric	3
C2 MATH 146	Pre-Calculus	4
CM 121	Intro to Construction	3
CM 180	Construction Graphics and BIM	3
FYS	ENGR 190 / CM 190 Recommended	3
Semester Total		16

SPRING		
Course #	Course Name	Hours
C3 COMM 201	Foundations Communication	3
C4	Health and Wellness	3
C5 PHYS 130	Introductory Physics I and Lab	4
CM 131	Human Factors & Safety	3
CM 211	Construction Methods	3
Semester Total		16

Second Year

FALL		
Course #	Course Name	Hours
C1-ENGL 202	Writing & Critical Inquiry	3
CM 212	Construction Materials	3
CM 213	Construction Material Lab	1
CM 222	Construction Surveying	2
CM 223	Construction Surveying Lab	1
CM 242	Estimating I	3
MATH 170	Applied Statistics	3
Semester Total		16
